

# Nicholas Vietto

nicholasvietto@gmail.com | xxx-xxx-xxxx | Omaha, Nebraska | [Website](#) | [GitHub](#) | [LinkedIn](#)

## Professional Experience

### University of Nebraska-Omaha

PhD Candidate

School of Criminology and Criminal Justice

*August 2020 - Present*

- Developed a machine learning model to enhance the theoretical evaluation of delinquency risk across multiple domains.
- Conducted data collection, curation, wrangling, and preprocessing for statistical analyses in R using both causal inference and predictive models.
- Developed a data visualization technique to examine and plot interaction/moderation models, enhancing interpretability for two [publications](#).
- Authored and collaborated on several [studies](#) for scientific publishing and [conferences](#).

### University of Nebraska-Omaha

Graduate Teaching Assistant

School of Criminology and Criminal Justice

*August 2020 - Present*

- Instructed and developed multiple undergraduate courses centered on quantitative subjects, including statistics and research methods using [Quarto](#) and [RMarkdown](#).
- Developed an [R package](#) that streamlines sample generation from multiple probability distributions, enabling quick dataset creation for demonstrations, troubleshooting, and teaching.

### Wayne State University

Researcher

Department of Criminology and Criminal Justice

*August 2019 - August 2020*

- Conducted research evaluating how environmental adversity and genetic polymorphisms influence behavioral outcomes.

## Education

### University of Nebraska-Omaha

Ph.D. in Criminology and Criminal Justice

Expected Spring 2025

Dissertation: Classifying Risk for Delinquency Across Theoretical Domains in the Future of Families and Child Well-Being Study: A Data-Driven Approach Using a Feed-Forward Neural Network

### Wayne State University

M.S. Criminal Justice

2020

### Oakland University

B.A. Biological Science

2016

## Professional Development and Specialized Quantitative Training

- Future of Families and Child Well-Being Study Summer Data Workshop, [Columbia University \(2023\)](#)
- Machine Learning: Uncovering Hidden Structures in Data, ICPSR Summer Program at University of Michigan (2023)
- Longitudinal Structural Equation Modeling, Department of Psychology at University of Nebraska- Lincoln (2022)
- Structural Equation Modeling, Department of Psychology at University of Nebraska-Lincoln (2022)
- Mixed Models, School of Criminology and Criminal Justice at University of Nebraska-Omaha (2021)

## Skills

- **Statistical Expertise:** Machine Learning, Predictive Modeling, Causal Inference, Experimental Design
- **Software:** Proficient in R, [HTML/CSS](#), [LaTeX](#), git; familiar with Python, SQL, Julia, Typst
- **Technical Skills:** [Data Visualization](#), [Package Development \(R\)](#), [Reproducible Workflows in Quarto](#), Data Wrangling, Web Scraping, Dashboards
