Work Experience

University of Nebraska-Omaha

PhD Candidate

School of Criminology and Criminal Justice

August 2020 - Present

- Collected data from 100+ participants using an experimental design that involved surveys, measurements of the autonomic nervous system (e.g., heart rate), and behavioral observations.
- Conducted data curation, wrangling, and preprocessing for statistical analyses in R using both causal inference and predictive models.
- Developed a new data visualization technique to examine and plot interaction and moderation models, enhancing interpretability for two publications.
- Wrote and collaborated on several studies for scientific publishing and conferences.

University of Nebraska-Omaha

Graduate Teaching Assistant

School of Criminology and Criminal Justice

August 2020 - Present

• Instructed and developed multiple undergraduate courses centered on quantitative subjects, including statistics and research methods using Quarto and RMarkdown.

Wayne State University

Researcher

Department of Criminology and Criminal Justice

August 2019 - August 2020

• Planned and executed analyses for a project that entailed evaluating the impacts of environmental adversity, genetic polymorphism, and behavioral outcomes.

Education

University of Nebraska-Omaha

Ph.D. Criminology and Criminal Justice

Expected Spring 2025

Dissertation: Classifying Delinquency Risk in the Future of Families and Child Well-Being Study: A Data-Driven Approach Using a Feed-Forward Neural Network

Wayne State University

M.S. Criminal Justice 2020

Oakland University

B.A. Biological Science 2016

Professional Development and Specialized Qunatitative Training

- FFCWS Summer Data Workshop Attendee, Columbia University (2023)
- Machine Learning: Uncovering Hidden Structures in Data, ICPSR Summer Program at University of Michigan (2023)
- Longitudinal Structural Equation Modeling, University of Nebraska- Lincoln (2022)
- Structural Equation Modeling, University of Nebraska-Lincoln (2022)
- Mixed Models, University of Nebraska-Omaha (2021)

Skills

- Statistical Expertise: Machine Learning (Caret & tidymodels), Predictive Modeling, Causal Inference, Experimental Design
- Software: Proficient in R, HTML/CSS, LaTeX, git; familiar with Python, SQL
- Technical Skills: Data Visualization, Package Development (R), Workflows in Quarto, Dashboards, Data Wrangling
